Historical Context and Economic Landscape

In 2012, the global economy was still grappling with the aftershocks of the 2008 financial crisis. Many countries faced sluggish growth, rising unemployment, and fiscal deficits. For the nation in focus, economic indicators revealed stagnation in key sectors such as manufacturing, agriculture, and infrastructure development. Public debt levels had increased, and investor confidence was waning, necessitating a comprehensive strategic response.

The domestic political climate was characterized by debates over reform, regulatory overhaul, and the need for a clear developmental roadmap. Against this backdrop, policymakers conceived the Get Back Plan 2012 to serve as a blueprint for economic revitalization and social upliftment.

Monitoring and Evaluation Mechanisms

Robust monitoring frameworks were instituted, including:
